====Genetics and Plant Biology, Lower Division B.S.====

College Admission Requirements for Transfer Students

This major is offered by the College of Natural Resources.

The Genetics and Plant Biology major is housed within UC Berkeley's College of Natural Resources, within the Department of Plant and Microbial Biology. From Oxygen to food to shelter to energy to shade, plants provide us with virtually everything we need to survive and to thrive. Genetics and Plant Biology (GPB) majors study the distribution and diversity of plant life from the sub-molecular to the organismal level. There is momentous work to be done for those who want to unravel the mystery of genes, bring expertise to medical school, educate future biologists, or develop methods to feed the world!

Genetics and Plant biology (GPB) combines traditional plant sciences (physiology, biochemistry, morphology) and more recent biological disciplines (molecular genetics and genomics) to study the role of plants in the global environment. The discipline emphasizes the study of plants from the sub-molecular levels to the organismal level. Relevant applications include biotechnology, bioenergy agriculture, biomedical, food science, bio informatics, and genetic counseling.

PREPARATION FOR TRANSFER AT THE JUNIOR LEVEL

Transfer applicants must complete the minimum admissions requirements by the end of the spring term preceding fall enrollment at Berkeley, and are encouraged to complete as many additional lower division requirements as possible. Exceptions are highly unlikely.

Please pay particular attention to how courses from your community college articulate to Berkeley. If courses for a particular subject are articulated as a group (for example, a 3-course series at your college may articulate to a 2-course series at Berkeley), you will need to take all of the courses noted in order for the articulation to work. If you have questions about articulation, please contact our Office of Instruction and Student Affairs, College of Natural Resources, https://nature.berkeley.edu/advising/meet-cnr-advisors

In general, students will be evaluated on:

- The strength of academic preparation and the completion of lower division requirements in biology, chemistry, and math
- GPA in the required courses
- Cumulative GPA
- The personal statement

MINIMUM ADMISSIONS REQUIREMENTS

Math 16A (or Math 1A or Math 10A)
Math 16B (or Math 1B or Math 10B)

Strongly recommended courses:
Physics 8A (or Physics 7A) and Statistics 2 (or Statistics 20) are strongly recommended.

Although IGETC is not required, certification will fulfill requirements for English R1A, English R1B and all Humanities and Social Sciences breadth courses.

AP Credit - We will accept the following AP credit:

Math 16A = AP Math AB, score of 3, 4, or 5 OR AP Math BC, Score of 3, 4, or 5
Math 16B = AP Math BC, score of 5
Chem 1A and 1AL = AP Chemistry, score of 4 or 5
Physics 8A = AP Physics B, score of 3, 4 or 5
Statistics Requirement = AP Statistics, score of 3, 4 or 5

Humanities and Social Science AP test scores of 3 or higher may also be counted towards the 15-unit Humanities requirement.

Please note that substituting AP scores for science and math coursework is accepted, but not recommended. Students who use AP scores for these requirements may struggle in subsequent coursework.

Please refer to the College of Natural Resources Handbook website for more information about substitutions for the English R1A and R1B requirements:
